the President said : 'The twenty-first annual report of the Directors is now submitted for your ap-

proval, and furnishes most . SATISFACTORY AND STRIKING EVIDENCE of the Company's position and of the progress and prosperity of the territory served

by its lines. Keep and growing interest in the fertility and productiveness of North-Western Canada is indicated by the increase in your land sales during the past year. Settlers attracted by cheap lands and agricultural conditions, that assure to them and their children farms and homes on a basis of investment not now possible in the thicklypopulated districts south of the International Boundary, are coming into Manitoba and the Territories in gratifying num-

MOST DESIRABLE CITIZENS. As stated in the report, the last of the five per cent land grant bonds are now being paid off. With the extinguishment of these, there will remain against your lands 3 1-2 per cent. bonds to the amount of \$15,000,000. Under the terms of the statute and the mortgage by which these bonds are secured, the proceeds of land sales will be deposited with the Dominion Government until the amount reaches the face value of the bonds, the Government in the meantime paying interest on the deposits at the rate of 3 1-2 per cent. per

By referring to the item in the balance sheet of "Deferred Payments on Land Sales," which yield 6 per cent, per annum, you will see that neither the principal nor the interest of these bonds need, for any lengthy period, give you much concern.

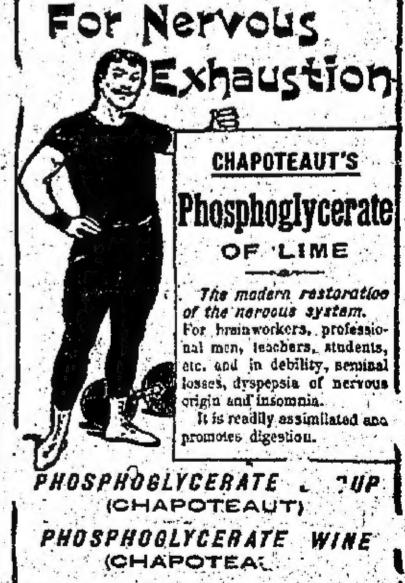

When the subject of an IVI House near the Flagstaff; from IMPROVED ATLANTIC SERVICE between Great Britain and Canada was receiving consideration in London; your 2062 Directors thought it wise to submit to the Canadian Government, on behalf of the Company, a proposition to provide what they believed to be the best and the most practicable service under existing con-

ditions. The Company offered, subject to certain traffic arrangements, to establish a weekly 2174 service of twenty-knot steamships between Liverpool and a St. Lawrence port during the Summer mouths, Halifax to be the Canadian port during the Winter months,

> Childhood is the formative period of in inhood and womanhood. As the child is so is the adult. Hence, health is most necessary during this important stage of physical development. Ill-health renders children stupid and dull, disinclined to play, prevents proper development of mind and muscle. A sickly, weakly child cannot he expected to enter mature life, healthy

and robust, and to achieve the possibilities of such a life. Often children need a good tonic—same thing to stimulate their organs to the full performance of healthful function; or arouse latent energies. A failure to give a good tonic at such times is to withhold from the child a stimulus that may materially effect

the future happiness and success of its Stearns' Wine of Cod Liver Oil D. SEVERAL newly-built 4 ROOMED HOUSES at MORRISON HILL GAP. is a tonic and tissue-builder admirable adapted to children. It is delicious in tasty and they like it. It does not disturb their stomachs and has no drawbacks. Its influence is for good only-it makes children

grow, makes their eyes bright, their checks rosy. It makes them gleeful and full of life. It forms them into stalwart men and healthful women. Wholesale from A.S. Watson & Co., Ltd., Hongkong.

during the two following periods of five years, the ships to be the most modern in every respect, and to be built especially for the route. In addiion to this, the Company sign ded its willingness to furnish a fleet or modern freight steamers of ten thousand tons capacity each, sailing at a speed of about twelve or thirteen knots per hour, serving Canadian ports.

Up to the present time your Directors have no information as to the policy likely to be adopted by the Government. It is evident, however, that whatever may be the outcome of the negotiations for the fast mail service, the rapid growth of your export tonnage, and the necessity for being in a position to meet

THE RATES OF ANY OF OUR COMPETITORS make it imperative that your Company be so situated on the Atlantic that it can quote through rates of freight and give through bills of lading without being compelled to negotiate for space and rates with independent steamship lines. To that end there will be submitted for your approval a resolution authorizing the Direc-. tors to make arrangements for the charter or control of vessels, if and when, in their opinion they are required for the protection of the Company's freight interests on the Atlantic Ocean. It is not expected, of course, that these freight vessels, when provided, will receive any Government subsidy, and therefore there will be

NO RESTRICTIONS to prevent your Company from running them between such ports as may best suit the purposes of the Company.

The rapid and pronounced increase in the volume of traffic, leaving little opportunity to provide the additional facilities required for handling it economically, caused a perceptible increase in the ratio of working expenses for the Tyear. Expenditures are being made as rapidly as possible to meet present and future requirements. While of course There Ewill be years when, from uncontrollable causes, our revenue will suffer some diminution, it may be safely assumed that the settlement and development of the territory now in progress give promise of a general improvement in your earnings during the next few years, even more satisfactory and gratifying than the advance made during the past seven years; indeed, in moving the adoption of the Annual Report, and congratulating the shareholders on the TEXCELLENT POSITION OF THEIR FINANCES,

conviction that the Company has barely entered proper the investors or expension and success that the future has in store for

NO OPTUM IN CHAMBERLAIN'S

I cannot help personally expressing my

COUGH REMEDY. MANY cough cures contain opium. The IVI effect of this drug is to diminish secretion of the mucus, and the relief afforded is only temporary. As soon as the offect of the opinin passes off, the glady sturns in a more severe form. The sportem is also weakened and rendered nore susceptible to cold. Chamberlain's Cough Remedy does not contain opium in any form. It affords relief and leaves the system in a healthy condition. It always cures and cures quickly. As asthetic soul; 'Well, did she buy the book?' 'No,' replied the clerk; 'she said she didn't like the cover design.'

AM writing personally to say how much I have benefited by taking your Stearns' Wine of Cod Liver Oil, it is so nice to take, tasting just like Pert, is easily digested and leaves no unpleasant taste, which ordinary Cod Liver Oil does. I have become touch stouter, and bad coughs, which were my constant trouble, have quite ceased. I think your preparation wonderful in its work, and overywhere I go shall not fail to recommend it.

Yours faithfully, SANDONIER TANCARVILLE CHAMBERLAYN.

A correspondent writes to as as follows: from Canton at 1.45 p.m. on Wednesday, the 29th inst. :- Rain at last! A heavy shower began a quarter of an hour ago and rain is still falling, but it is to be feared it is only a passing shower. Time will tell. Suspected Jewellery Theft.

At the beginning of this month, a Malay was arrested by Detective Inspector Breman in a Singapore pawnshop trying to dispose of \$20,000 worth of jewellery which it was suspected he had stolen. The Malay said he had received the jewellery from a Javanese prince, who had commissioned him to pawn it, but as he had no credentials his statement was disbelieved by the Police. The jewellery consists of gold centipede belt, several dragon krosungs or brooches, rings, diamonds, &c., and evidently belong to one collection of jewels, but as no one appeared to claim the jewellery the Malay was remanded for enquiry. It now transpires that towards the latter part of 1900 the Sultan of Deli was robbed of a quantity of jewellery similar to that at present in the hands of the Police, and one of the Sultan's men is now on his way to Singapore to see if he can identify the jewellery.

New Austrian Cruiser,

The new Austrian cruiser Kaiser Karl VI arrived at Singapore from Triesto on the 24th inst. and anchored in the Roads. The Kaiser Karl VI is relieving the Kaiserin Maria Theresa in China waters. Launched at Triesto in 1898 at a cost of £368,124, the Kaiser Karl VI is one of Austria's latest additions to her Navy. Of 6,250 tons, her length is 367 ft. 6 in., beam 50 ft., and she has a draught of 20 ft. 4 in. She is an armoured cruiser, having a 10.6 in belt of armour, 9.8 in. on her gun positions and an armour dock plating an inch and ahalf in thickness. She carries two 9.4 in., eight 5.9 in. and eighteen 1.8 Q.F. guns, two maxims and four torpedo tubes, exectly the same armament as the vessel she relieves. Her indicated horse-power 12,800, and she has a speed capacity of 20 knots. 800 tons is her normal coal supply,

and her crew number 450. The Characters of Fiction. In one of the monthlies there is a clever reference to the manner in which novelists choose names for their heroines, McLeod's 'Influence of Dante on the Art and other persons, 'Charles is always a of his Century.' The forte of Cimabue, bright youth, easily led, perhaps, but wellmeaning; John is honest and blunt, and marries the best girl at the end, and they have a generous family. Jasper is capable of anything; if there is dodging with wills and other precious documents. Jassey is the man to do it. Margaret invariably keeps on the main line; and Gertie is ever a sweet, winsome, affectionate young person. It seems very odd that names should thus run in a groove. Who would imagine William anything but sedate, or Frederick anything beyond a well-moustached, but not significant person. Henry-as Harryis a warm-hearted Englishman, with strong, manly grip. A good many members of Clubs seem to think that they have a right to go on owing their fellow members money, for that is what being in arrears means. One large Olub in Singapore has successfully adopted the deposi, system, by which a member's credit stops when his deposit is exhausted. The credit system is merely a convenience, both for clubs and retail firms, and we are not sure that the cash down practice adopted by some firms would not be a great advantage in the Colony, where salaries are paid by the month, and at the end of the month. The result of that method of paying wages is that for the first third of the month there is a wild burst of extravagance, during the second third necessaries are secured on disadvantageous terms on the promise of payment at the end of the month, and during the third starvation conditions prevail. Promont week by week might more the evil of the natural improvidence of native workers, but then employers have so much trouble with absences and leaving service without notice that they would be unwilling to give up the slight hold the retention of a few days' wages gives them,

IMPERIAL RIFLE MATCH.

Poor Score by Hongkong.

Yesterday afternoon, Hongkong fired off in Imperial Rifle Match promoted by the Rupanyup Rifle Association, Victoria, Australia. Overhead the weather was brilliantly fine, and there was a good light on the targets, which were on the latest Bisley principle; but a fluky, fish-tail, rear wind made - it difficult to find the hull's-eye. The result was that Hongkong, rather weakly represented this year owing to the departure of several of the well-known marksmen who had made the Colony famous all over the Far East for its rifle shooting, put together the very low aggregate of 825. This compares very badly with the 943 made last year, when Hongkong came out fifth in the whole Empire. Last year, Colour-Sergt. Wake, R.M.L.I., and Mr J. Marshall, Naval Yard, scored 100 each, Ma This year, the top score, made by Colour-Sergt. Cross, R.M.L.I., was only 96 and

the lowest was 67. Mr G. P. Lammert, who is altogether out of practice, and who fired for the second time only with a new rifle, scored 70 only, and instead of being in his accustomed place at the top of the list was second from the bottom. hoped Hongkong will do better than this in the Interport Rifle Match. The arrangements for the match, which THE CEYLON VOLUNTEERS. were perfect, were carried out by Lieut.

Hector Macdonald and the Fire M. S. S. Northcote, Hon. Secretary of the Hongkong Rifle Association. The scores were attested by Major A. Chapman, Hongkong V. C., Mr C. A. Dick Mel-

Probable Causes. That the present activity at the Naval

Yard and on the British worships still remaining in Hougkong harbour portonds far more serious work than the demonstrations which have from time to time become a part of the ser routine of the China Squadron, is the opinion held in semi-official quarter. Advices from Shanghai, we are told, disclose a serious state of things, and, although, of course, the utmost secreey is maintained as to the exact nature of the danger, persons in a position to form a strowd guess incline towards the belief that something like a deadlock has occurred in the evacuation preliminaries. We have very good authority for the statement that the orders relating to two of the hurriedlysummoned warships were due to the feeling Connection with the Hunan affair, in regard to which the attitude of the Chinese offi-

but possibly wide of the mark. That there is no immediate cause for alarm is pointed by the delay in the departure of the Amphitrite, Captain Windham's ship was put to a severe test yesterday, and did nineteen-odd knots before the white metal of the bearings ran. This was why the trial was stopped and the ship brought back into the harbour. She will be put to a second trial on Friday, and then but to sea. From this delay, following a very severe test, it may be safely assumed that whatever the reason may be of the activity of the fleet it is not one of an immediately alarming nature. Had the danger been of that quality every available

warship in the harbour would have been under steam without waiting for high-pressure trials or tests of any sort. Still, at the same time, the history of naval operations east of the Levant prove that in this regard, more perhaps than that of any other, the old proverb, 'it the unexpected which always' happens, proves its truth. The bombardment Alexandria was almost an accomplished fact before the majority of the officers and met on the attacking ships had the least inkling Several strong players were lost to the jof what was on foot; so, also, has it been in many other naval affairs, and so it may

into harbour all that was required from the yard would have been forthcoming. We are informed that there is absolutely no foundation for the rumour, current this morning, that orders had been given to send military reinforcements up north.

We take the following from the Times of Ceplon's Volunteer Camp Notes :-

About 10.30 p.m. the Major-General was noticed discussing with Major Morris a fire picquet order which always hangs in the mess and which was handed him. Shortly ing :after, the bugle sounded the fire alarm during a song. The Officers hastily quitted the mess, and in a few minutes the fire piequet was in front of the mess carrying green branches and sticks. The General gave them a critical look, asked a few questions, and orderest one of the companies auanding outside their respective buts to be brought before him. Most of the men

at once attracted the General's attention, as it seemed impossible for men supposed to be in bed to have turned out so quickly match, however, was postponed until after in uniform. Of course no one was informed that there would be a fire alarm or night attack.
